

Safety Data Sheet

Created : 13.10.2004

Up-dated: 23.12.2010

1 Company and product identification

Trade name:**Phosphor-Bovisal®****Use of the substance / of the preparation:**

Feed supplement

Manufacturer/Supplier:

CHEVITA Tierarzneimittel GmbH

Raiffeisenstraße 2

85276 Pfaffenhofen

Germany

Emergency information:

Tel. (+49)-8441-853-0

Fax (+49)-8441-853-50

2 Composition/information on ingredients

Calcium phosphate

Magnesium phosphate

Sodium phosphate

Water

3 Hazard identification

Risk category: not applicable**Special safety instructions for humans and animals:**

not applicable

4 First Aid Measures

| | |
|------------------------------|---|

- Use as soon as possible after opening the package.
- Store in a dry place to preserve quality.

8 Exposure control / personal protection

Control of explosion: No special measures necessary.

Personal protection: Avoid contact with the product. Remove contaminated clothing.

9 Physical and chemical properties

Form: liquid (suspension)

Colour: white

Odour: sweet

Change of state

Melting point: - 2 °C

Boiling point: 98 °C

pH value (10 % in water): 5.0 - 5.3

Density: 1.285 g/cm³

Explosion limits: not applicable

Flash point: not applicable

Ignition temperature: not applicable

10 Stability and reactivity

Dangerous reaction: None known.

11 Toxicological information

Providing the product is handled appropriately and general hygiene regulations are observed, no health risks are known.

Eye contact: Slightly irritant. May cause passing redness.

Skin contact: May cause dry skin in case of longer or repeated contact.

Ingestion: No toxic effect.

Safety Data Sheet

Product name: Phosphor-Bovisal®

12 Ecological information

Water-risk category: 1, low water risk (own classification).

13 Disposal considerations

Recommendation: The product and cleansing media must be disposed of in accordance with local regulations. For large quantities, consult the supplier.

14 Transport information

No restrictions.

15 Regulatory information

Marks according to the EEC directives:

No identification required under the "Gefahrstoffverordnung" (dangerous substances ordinance).

National regulations.

Water risk category: 1, low water risk (own classification).

16 Other information

Use: Feed supplement
